

First let me say I hooked up with XM because of broadcast radio's constant talking about useless information. All they do 75% of the time is talk, talk, talk!!!!!! I got so sick of that "crap" it just about drove me crazy. When XM started up I subscribed right away. The way I see it, I "PAY" for this service, and I should be able to have anything I am willing to pay for. Whatever XM wants to offer is fine with me. So, I say to you NAB - BACK OFF - HARD!!!!!!!!!!!!!!
